“Use of Multivariate Methods in Environmental Settings”

MONDAY, April 24, 2006 at 4:00 PM
133 Eckhart Hall, 5734 S. University Avenue

Refreshments following the seminar in Eckhart 110.

ABSTRACT

In this talk I will discuss many primary multivariate methods such as Discriminant Analysis, Clustering Analysis, MANOVA and Response Surfaces that are then applied to Pottery data, Woodyard data, Texas Water well water data, Painted turtle data.

Please send email to Mathias Drton (drton@galton.uchicago.edu) for further information. Information about building access for persons with disabilities may be obtained in advance by calling the department office at (773) 702-8333.
