**Age-Period-Cohort Models: What's New?**

**MONDAY, March 8, 2010, at 4:00 PM**  
**133 Eckhart Hall, 5734 S. University Avenue**

*Refreshments following the seminar in Eckhart 110.*

**ABSTRACT**

I provide a synthesis of recent developments of new methods and models for age-period-cohort analysis in social research based on three commonly used research designs, including age-by-period tables of rates/proportions, repeated cross-sectional surveys, and accelerated longitudinal panels, in the context of empirical analyses. I also discuss avenues for future research.
