**Completion of Missing Entries in Matrices and Tensors**

**MONDAY, September 12, 2011, at 4:00 PM**  
133 Eckhart Hall, 5734 S. University Avenue

**ABSTRACT**

In many instances in measuring multidimensional data, as matrices and tensors, one confronts the following problems: noisy data, missing entries and data reduction. There are many statistical and mathematical methods to deal with these problems. In this talk we survey some of the known methods and expand on the methods that the speaker was working on.
