

Andrew Poppick Wins ASA Award

Andrew Poppick

Andy Poppick's work on evolving climate variability has won an ASA student paper award. Andy is co-advised by Profs. Michael Stein (Statistics) and Liz Moyer (Geophysical Sciences) and will present his paper at the 2016 Joint Statistical Meeting in Chicago. Andy's research is supported by U. Chicago's Center for Robust Decision-making on Climate and Energy Policy (RDCEP) and by STATMOS, the Research Network for Statistical Methods for Atmospheric and Oceanic Sciences.
